

Security Conscious: Large Importance

As a security conscious person I want to be able to have my own login on the website so that I have my own account and my data is private.

- I want to signup to create an account
- I want to login with my account
- I want to logout of my account

Failing Student: Large Importance

As a struggling student I want to have a schedule that has my classes so that I can remember when to go to class.

- I want to input my classes
- I want to input information about my classes, such as how many credits a class is worth

Student Organization: Large Importance

As an officer of an important student organization on campus, I want to ensure organization in my busy schedule as well as ensuring that I'm taking care of myself so that I can be the best that I can be in every aspect of my life, leader and student alike.

- I want the schedule to balance assignments, club activities, and self-care
- I want to be given reminders to care for myself
- I want the schedule to never prioritize sleep or eating overwork

Software Developer: Medium Importance

As a software developer, I want to be able to keep close track of my upcoming deadlines and important events so that I can stay as on track as possible on the job and life.

- I want to input assignments and information about them
- I want to specify their due dates
- I want to give assignments deadlines
- I want to be reminded when assignments are due
- I want to give secondary deadlines for assignments

Quidditch Player: Medium Importance

As a quidditch player, it is important to keep my grades up. I want this website to be able to level my priorities around my hectic quidditch schedule.

- I want to input my clubs
- I want to input my club meeting times
- I want to schedule homework around club meetings

Uninvolved Student: Medium Importance

As an uninvolved student leisure time is my favorite thing in the world. I want this website to set my priorities straight so that I can enjoy my video games, go to work, and take naps without having to worry about getting stuff done.

- I want to have free time built into my schedule
- I want to plan breaks in my schedule

- I want to plan specific break activities

Worker: Medium Importance

As an employee, I want to see when I am scheduled for work so that I don't miss any hours.

- I want to input my work hours
- I want to keep track of the hours I work in a given week
- I want to input a goal for how many hours I work each week

Scholar Athlete: Medium Importance

As an NCAA athlete, I want to see suggestions for when I should eat/sleep/do homework so that I can better manage my time.

- I want to input when I have practice
- I want to schedule homework around practices
- I want to be given suggestions for when to do activities

Sleepless: Small Importance

As a person who needs a full night's sleep, every night want to be able to plan my sleep and ensure that I'm getting enough hours of sleep each night so that I can be more happy and productive.

- I want to keep track of how many hours I sleep
- I want to have a goal for how many hours I sleep each night
- I want to schedule when I sleep every night

Sports Fan: Small Importance

As a sports fan, I want the application to give me suggestions of local sporting events to attend in the time that it has allocated to me as free time.

- I want suggestions for what to do with my free time
- I want to see sports events in my area

Professor: Small Importance

As a Professor I want time allocated for grading and class schedules so I can optimize my free time.

- I want to input how many hours I have free
- I want time to work on my assignments to be planned during my free time
- I want to input when I have class
- I want to input individual classes
